

The Matts: AI in the Workplace

Book a simple one-off session, or let us support your internal AI training.

Three ways to work with us:

OPTION 1	OPTION 2	OPTION 3
One-Off Delivery	Train the Trainer: Tier 1	Train the Trainer: Tier 2
The Matts deliver the 4-hour 'AI in the Workplace' workshop at your site. A high-impact, one-off session with no internal trainer needed.	Your own trainers: up to 4 AI Champions who observe, co-deliver, then lead 3 × 'AI in the Workplace' workshops for up to 120 staff. Licensed slide deck, no updates.	Everything in Tier 1, plus a year of support: a 4th workshop, AI in Leadership and M365 Copilot Premium Upgrade workshops, quarterly updated slides, a video library and up to 2 support sessions.

TIER 1: FOUNDATION

Capability transfer + static materials

3 workshops	Licensed slide deck (no updates)	Train up to 4 AI Champions
-------------	----------------------------------	----------------------------

- Up to 40 staff per workshop (120 total)
- Structured debrief after each workshop
- Observe → Co-deliver → Deliver independently

IP Licence: Licensed slide deck for internal use only. IP retained by Cardiff University and The Matts. Updates not included.

Outcome: An internal team capable of delivering the AI in the Workplace programme independently.

Workshop 1: Observe	Workshop 2: Co-deliver	Workshop 3: Deliver Independently
Your AI Champions observe The Matts delivering the workshop, followed by a structured debrief.	Your AI Champions deliver sections of the workshop alongside The Matts, followed by a structured debrief.	Your AI Champions deliver the workshop while The Matts observe and provide feedback through a structured debrief.

TIER 2: FOUNDATION + EXTENDED SUPPORT

Capability transfer + additional delivery + updated materials + specialist workshops + support

4 workshops (1 additional workshop)	AI in Leadership Workshop	M365 Copilot Premium Upgrade Workshop
Curriculum updates	Micro-learning library	On-request support sessions

Everything in Tier 1, plus:

- Total of 4 × AI in the Workplace workshops delivered (1 additional workshop)
- 1 × AI in Leadership Workshop
- 1 × M365 Copilot Premium Upgrade Workshop (2 hours)
- Trainer micro-learning library (30+ videos)
- Quarterly curriculum updates and revised slide decks for 12 months
- Up to 2 × AI Adoption Support Sessions (2 hours each, on request)

Support sessions can cover anything AI, including AI literacy planning, Responsible AI and governance, practical adoption and implementation, AI leadership, questions arising from internal delivery, horizon scanning and emerging developments.

Outcome: An internal AI capability supported by current content, updated materials and expert guidance during the first year of adoption.

AI in the Workplace

AI as Your Co-Pilot Workshop:
Start AI upskilling with 'The Matts'

Learn by Doing

Experiment with AI tools through guided hands-on exercises to build practical confidence.

Responsible AI Use (including protect your data)

Protecting Your Data:

- Identify sensitive data types that should never be shared with AI systems.
- Recognise potential biases and limitations in AI-generated content.
- Understand the environmental, ethical and financial considerations of AI implementation.

Workplace Productivity

Explore AI workplace usage cases as an assistant.

Prompt Engineering

Develop effective prompts using the five key principles, to improve AI outputs.
